Solo Health – V10000

The Summary of Benefits and Coverage (SBC) document will help you choose a health plan. The SBC shows you how you and the plan would share the cost for covered health care services. Important Questions	Answers	Why This Matters:
What is the overall deductible?	**$10,000** individual / **$20,000** family	Generally, you must pay all the costs from providers up to the deductible amount before this plan begins to pay. If you have other family members on the plan, each family member must meet their own individual deductible until the total amount of deductible expenses paid by all family members meets the overall family deductible.
Are there services covered before you meet your deductible?	Yes. Preventive care and $0 preventive medications are covered at 100% with the deductible waived, and telehealth visits are covered at 100% before you meet your deductible. Preventive care follows ACA preventive-care guidelines.	This plan covers some items and services even if you haven't yet met the deductible amount, but a copayment may apply.
Are there other deductibles for specific services?	No.	You don't have to meet deductibles for specific services.
What is the out-of-pocket limit for this plan?	**$10,000** individual / **$20,000** family	The out-of-pocket limit is the most you could pay in a year for covered services. If you have other family members in this plan, they have to meet their own out-of-pocket limits until the overall family out-of-pocket limit has been met.
What is not included in the out-of-pocket limit?	Certain drug coupon amounts, premiums, balance billing charges, & non-covered excluded services.	Even though you pay these expenses, they don't count toward the out-of-pocket limit.
Will you pay less if you use a network provider?	This plan uses the MultiPlan PHCS Practitioner & Ancillary network (a Claritev network). See providersearch.multiplan.com for a list of network providers.	Your deductible and out-of-pocket maximum are the same in and out of network. Out-of-network services are covered subject to reference-based pricing, and you may be responsible for amounts a provider charges above the plan's allowable amount (balance billing). Emergency services are always treated as in-network.
Do you need a referral to see a specialist?	No.	You can see a specialist without a referral.

All copayment and coinsurance costs shown in this chart are after your deductible has been met, if a deductible applies.
